About me

I'm passionate about web development and define myself as someone eager to learn. I have worked on various projects using the MERN stack.

Projects

E-commerce Audio Joy

React, Node, Express, MongoDB

- Creation of the page design using Figma.
- Creation of the page based on the design.
- Creation of the backend with Node/Express/MongoDB to store the products.
- Creation of a dashboard to upload products to the store.

Note day

React, Node, Express, MongoDB

- Designing the page layout using Figma.
- Page layout implementation according to the design using React/Tailwind.
- Creation of the backend with Node/Express/MongoDB.

Weather app

Html, Css, Javascript, React

- Creation of the web page and its components using React/Styled Components.
- Query to external APIs to obtain the geolocation and weather information of a specific location
